WARRIORS  
AUSTRALIA

# Strategic Plan Summary 2022 - 2025

# About Us

Eco Warriors Australia was formed in late 2021, comprising a group of passionate individuals who wanted to make a positive impact on Australian ecosystems and the environment.

In less than a year, Eco Warriors Australia has evolved and grown considerably.

Our core team and Steering Committee have organized and hosted a number of community events, and we have been successful in securing grant money to undertake on-ground conservation actions.

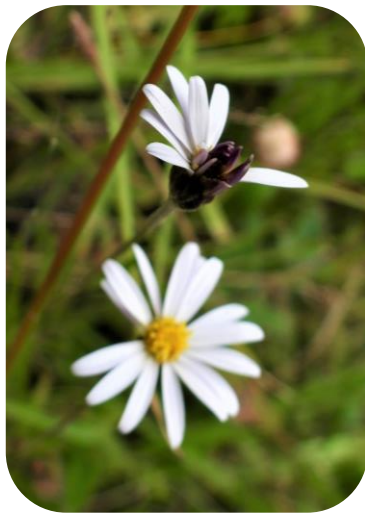

# Our Mission

To create a place for individuals and groups to collaborate and share information and ideas to enhance the resilience of the ecosystems of Australia.

To provide opportunities for individuals and groups to contribute to improving Australian ecosystems through a variety of opportunities.

To raise awareness of issues threatening native ecosystems, communities and fauna and flora of Australia

Focus	Approach	
<b>Inclusion</b>	Offer opportunities for all ages and abilities to get involved in our projects	
<b>Science</b>	Base on-ground activities on best available science and knowledge	
<b>Collaboration</b>	Seek to form and nurture partnerships across all sectors to benefit the environment	
<b>Communication</b>	Strive to communicate our work and opportunities to as many people as we can through multiple avenues	

# Our Strategies for 2022-2025

- Increasing community participation in environmental projects, on-ground actions and community events
- Forming meaningful and lasting collaborations for the benefit of the environment
- On-ground restoration projects focussing on endangered, endemic flora species
- On-ground habitat creation projects to benefit threatened native vertebrates

# Our Priority Species & Habitats 2022-2025

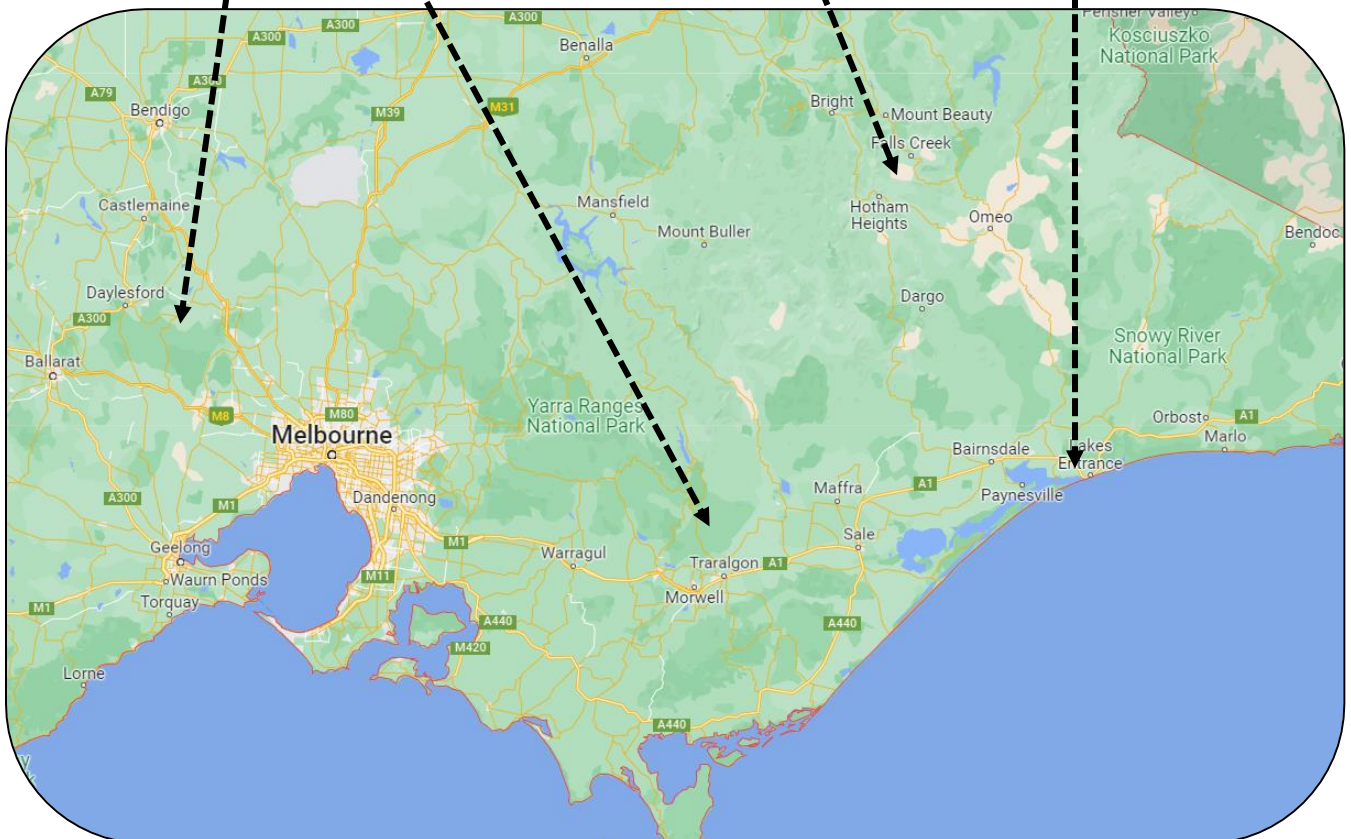

Endangered arboreal marsupials, including the Southern Greater Glider and Leadbeater's Possum

Blue carbon ecosystems and habitats – including mangrove, saltmarshes and seagrasses

High altitude Alpine endangered flora
